

The official golf season in Quebec is from April 15th to October 31st. The GGGolf system recognizes these dates, therefore, if you record a game outside of the official season dates, your game will appear in your records, but it will not be counted in the calculation of your handicap. Therefore, it is important to record ALL your games in order to maintain 100%. **WISHING EVERYONE A GREAT SEASON !**

Your first **social activity** will take place on Saturday, May 14th. It will be a 4-player Vegas without handicap and some interesting challenges for all. What a great opportunity to make new acquaintances. We hope to have a great turnout.

The **Opening Tournament** will take place the following Saturday, May 21st and as in the past, expect good food, a jovial atmosphere and, of course, a little challenge from Marc-André. No need to change this winning formula. Don't miss out !
